FACULTY

Walid ABID
Sfax, Tunisie

Arya AMINI
Duarte, CA, USA

Jean-Marc BASTE
Rouen, France

Alex BRUNELLI
Leeds, UK

Stephen CASSIVI
USA

Marion DURAND
France

Calvin SZE HANG NG
Hong Kong

Alexander KERN
Germany

Linda MARTIN
USA

Karel PFEUTY
France

Agathe SEGUIN-GIVELET
Paris, France

Sacha STAMENKOVIC
London, UK

Yaodong ZHOU
Beijing, China

Prasad S. ADUSUMILLI
New York, USA

Hisao ASAMURA
Tokyo, Japan

Tim BATCHELOR
Bristol, UK

Christopher CAO
Sydney, Australia

Robert J. CERFOLIO
New York, NY, USA

Nicolas GIRARD
Paris, France

Waël C. HANNA
Canada

Chloé LAFOUASSE
France

Hiroyuki OIZUMI
Tokyo, Japan

Rossella POTENZA
Italy

Suresh SENAN
Amsterdam, Netherland

Shinya TANE
Kobe, Japan

Nasser ALTORKI
NY, USA

Patrick BAGAN
France

Guillaume BODDAERT
Paris, France

Giuseppe CARDILLO
Roma, Italy

Herbert DECALUWÉ
Leuven, Belgium

Dominique GOSSOT
Paris, France

Gening JIANG
China

Kelvin LAU
London, UK

René PETERSEN
Copenhagen, Denmark

Masaaki SATO
Tokyo, Japan

Alan D. SIHOE
Hong Kong, China

Shun-Ichi WATANABE
Japan

* This list is pending on final confirmation of the faculty

DRAFT agenda

Thursday, January 12th, 2023

Day 1 : Indications for segmentectomy : Where are we up to ?

8:15 - 8:25 Introduction - TBD

Session 1 : SLR for lung cancer : changes induced by the the results of trials

8:25 - 8:40 In Japan - **H. Asamura, Japan**

8:40 - 8:55 In the USA - **N. Altorki, USA**

8:55 - 9:10 In China - **G. Jiang, China**

9:10 - 9:25 In Europe - **A. Brunelli, UK**

Session 2 : Indications for segmentectomy for subsolid nodules : Do we have to change our strategy depending on ?

9:25 - 9:40 Suspected or proven visceral pleura invasion? **A. Mariolo, France**

9:40 - 9:55 Associated STAS? **PS Adusumilli, USA**

9:55 - 10:10 Invaded Intersegmental lymph nodes ? **L. Martin, USA**

10:10 - 10:25 Invaded margins ? **D. Gossot, France**

10:25 - 10:40 Inner located tumors - **S. Tane, Japan**

BREAK - 10:40 - 11:10

DRAFT agenda

Session 3 : SLR for Pure GGO

- 11:10 - 11:45** Anatomical segmentectomy or wedge resection for pure GGO (controversy)
1. Segmentectomy - Y. Zhou, China
2. Wedge - S. Watanabe, Japan
- 11:45 - 12:00** Lymph node clearance or not? - **A. Sihoe, Hong Kong**
- 12:00 - 12:20** The ESTS recommendations - **R. Petersen, Denmark**

Session 4 : Clinical cases

- 12:20 - 12:35** Clinical case n°1 - **C. Lafouasse, France**
- 12:35 - 12:50** Clinical case n°2 - **TBD, France**
- 12:50 - 13:05** Clinical case n°3 - **A. Mariolo, France**
- 12:50 - 13:05** Lunch Symposium - **Medtronic**

Medtronic

Session 5 : Planification and visualization of anatomy

- 14:00 - 14:15** The benefit of 3D modelization and 3D printing - **S. Cassivi, USA**
- 14:15 - 14:30** Mixed reality visualization tool for planning and simulation - **A. Seguin, France**

Session 6 : Intersegmental plane management

- 14:30 - 14:45** Delineation of the ISP : an overview - **R. Potenza, Italy**

DRAFT agenda

Session 6 : Intersegmental plane management

14:45 - 15:00

Delineation of the ISP by IR imaging - **WC Hanna, Canada**

15:00 - 15:15

The challenge of ISP delineation and division for basilar segmentectomies - **M. Sato, Japan**

Session 7 : Target localization and preoperative diagnosis

15:15 - 15:30

Background - **R. Cerfolio, USA**

15:30 - 15:45

Can we get rid of preoperative diagnosis ? **TBC**

15:45 - 16:00

Percutaneous localization : a review of available techniques - **R. Petersen, Denmark**

16:00 - 16:15

Endobronchial localization - **A. Seguin, France**

16:15 - 16:45

Lecture : From maximal access to minimal access and from maximal resection to minimal resection: What we have learned - **D. Gossot, France**

END OF THE DAY - 16:45

DRAFT agenda

Friday, January 13th, 2023

Day 2 : Techniques and results

Session 8 : VATS and RATS segmentectomies: tips, tricks and dangers. Sharing experts experience

8:15 - 8:30 Title to be confirmed - **BD symposium**

Prerequisites for

8:30 - 8:40 Segmentectomies - **A. Brunelli, UK**

8:40 - 8:50 Subsegmentectomies - **H. Oizumi, Japan**

Upper and middle segmentectomies

8:50 - 9:00 My tricks for Right S¹⁺² and S² - **JM. Baste, France**

9:00 - 9:10 My tricks for S³ - **S. Stamenkovic, UK**

My tricks for left tri-segmentectomy of the upper lobe

9:10 - 9:20 By RATS - **R. Cerfolio, USA**

9:20 - 9:30 By VATS - **G. Boddaert, France**

9:30 - 9:40 My tricks for lingulectomy - **H. Decaluwé, Belgium**

Lower segmentectomies

9:40 - 9:50 S⁹⁺¹⁰ - **G. Boddaert, France**

9:50 - 10:00 S⁸ - **TBC**

10:00 - 10:10 How to deal with S* et S⁷ - **M. Sato, Japan**

DRAFT agenda

10:10 - 10:20 S⁶ with sleeve resection - **M. Durand, France**

10:20 - 10:30 Combined Segmentectomies - **K. Pfeuty, France**

BREAK - 10:30 - 11:00

Session 10 : Outcomes

11:00 - 11:15 Complications - **D. Gossot, France**

11:15 - 11:30 Does the approach impact outcome ? **A. Brunelli, UK**

11:30 - 11:45 Functional benefit ? **C. Cao, Australia**

11:45 - 12:00 Granuloma mimicking local recurrence: how to differentiate? **G. Cardillo, Italy**

12:00 - 12:15 Benefit of SLR for second primary NSCLC - **W. Abid, Tunis**

12:15 - 12:45 Lunch Symposium

12:45 - 14:30 Pause déjeuner

Session 11 : A glance at the future: advanced technologies for endoluminal surgery (Clinical and Industry presentations)

14:30 - 14:40 Introduction: coming technologies for thoracic surgery - **A. Sihoe, China**

14:40 - 14:50 Hybrid room: specifications for thoracic surgery - **K. Lau, UK**

14:50 - 15:00 Robotic endoscopy - **J. Reisenhauer, USA**

15:00 - 15:10 Articulated instruments - **A. Kern, Germany**

15:10 - 15:20 New robots - **P. Bagan, France**

DRAFT agenda

Session 12 : Minimizing minimally invasive thoracic surgery

- 15:20 - 15:30 Impact on education program and training - **TBC**
- 15:30 - 15:40 Shortening our delays from diagnosis to treatment - **S. Cassivi, USA**
- 15:40 - 15:50 Segmentectomy as an outpatient procedure ? **T. Batchelor, UK**
- 15:50 - 16:00 Subsegmentectomies : Are there advantages over a wedge resection ? **S. Watanabe, Japan**
- 16:00 - 16:10 Multiplex subsegmentectomies - **H. Oizumi, Japan**

Session 13 : Upcoming treatments & technologies

- 16:10 - 16:20 Pure medical treatment of early-stage NSCLC: is it foreseeable ? **N. Girard, France**
- 16:20 - 16:30 How Perioperative immunotherapy can influence our practice? Immunotherapy a surgical revolution? **N. Altorki, USA**
- 16:30 - 16:40 CT-guided percutaneous ablation - **J. Reisenhauer, USA**
- 16:50 - 17:00 Endobronchial destruction (whatever the technique)
 - a. UK experience - **K. Lau, UK**
 - b. Hong Kong experience - **C. Ng, Hong Kong**
- 17:00 - 17:10 SBRT or SLR for early-stage NSCLC
 - a. Pro SBRT: confidence on SBRT trials - **A. Senan, The Netherland**
 - b. Pro SLR: prudence on interpretation of SBRT Trials - **A. Amini, USA**
- 17:10 - 17:20 The End: Take home message - **A. Sihoe, Hong Kong**

END OF THE CONFERENCE
