Dear Colleagues,

We are pleased to invite you to our joined **5<sup>th</sup> International Sublobar Resection and Bronchoscopic Ablations Summit** that will take place on January 9<sup>th</sup> & 10<sup>th</sup>, 2025 in Paris.

Building on our success since 2018 in bringing together the surgical community to discuss sublobar development, we also aim to capitalize on the tremendous success of the first two congresses on bronchoscopic ablation, held in London (2022) and Hong Kong (2023).

Therefore, we will focus on all aspects of sublobar resections for lung cancer, from indications to preoperative planning and advanced surgical techniques. Additionally, we will present the latest advancements in robotic bronchoscopy, advanced navigation, imaging, and ablation technologies that could lead the way in the sublobar field in the near future! These various techniques will coexist and complement each other. That's why the International Sublobar Conference Association and St. Barts Hospital are joining forces and pooling their experience for this new edition.

The focus of this event will be to assemble an even larger gathering of the world's brightest minds and leaders in sublobar resection and lung ablation, to share their experiences and discuss the advances made in recent years.

As a result, the conference will serve as an open door to an exciting and promising future.

Best regards,

**Dr Agathe Seguin-Givelet**  
President of the International  
Sublobar Conference  
Paris, France

**Dr Kelvin Lau**  
President of Bronchoscopic  
Ablation Summit meetings  
London, UK

# PROGRAM

# PROGRAM

## DAY 1: THURSDAY, JANUARY 9<sup>th</sup>, 2025

**8:15 - 8:25** Introduction: SLR and local treatment: competition or complement?  
**Agathe Seguin-Givelet, Paris, France & Kelvin Lau, London, UK**

### Session 1: Lung Cancer screening and diagnosis

Moderators: S. Blackmon & HK Kim

**8:25 - 8:35** From back of the envelope to standard of care: the road to lung cancer screening  
**David Yankelevitz, New York, USA**

**8:35 - 8:45** AI and Technology Developments for lung cancer screening  
**Luis Miguel Seijo, Madrid, Spain**

**8:45 - 8:55** Interventional approaches to tissue diagnosis  
**Fabien Maldonado, Nashville, USA**

**8:55 - 9:05** Hands off approach to tissue diagnosis: hype of reality?  
**Anatole Cessot, Paris, France**

**9:05 - 9:15** Do I need a tissue diagnosis before surgery in early NSCLC?  
**Robert Cerfolio, New York, USA**

**9:15 - 9:25** Panel Discussion

### Session 2: What news on sublobar resections?

Moderators: K. Lau & H. Oizumi

**9:25 - 9:35** Sublobar resection in Asia - The latest innovations  
**Hyun Koo Kim, Seoul, South Korea**

**9:35 - 9:45** Sublobar resection in Europe - The latest innovations  
**Pascal Thomas, Marseille, France**

**9:45 - 9:55** Sublobar resection in America - The latest innovations  
**Shanda Blackmon, Houston, USA**

**9:55 - 10:05** Panel discussion

**10:05-10:35** Break

### Session 3: What news in bronchoscopic ablation?

Moderators: F. Maldonado & A. Seguin-Givelet

**10:35-10:40** Progress on bronchoscopic ablation from Europe  
**Kelvin Lau, London, UK**

**10:40-10:45** Progress on bronchoscopic ablation from America  
**Michael Pritchett, Pinehurst, USA**

**10:45-10:50** Progress on bronchoscopic ablation from Asia  
**Calvin SZE Hang Ng, Hong Kong**

**10:50-11:05** Panel discussion: What is the future

With the support of:

**PHILIPS**

With the support of:

**PHILIPS** 

### Session 4: How to do it? Understanding and determining margins? (Planification, frozen sections, analyses)

Moderators: C. Ng & M. Pritchett

**11:05-11:20** Planification for sublobar resection what do clinicians need from engineers?  
**Stephen Cassivi, Rochester, USA**

**11:20-11:35** Comparative effectiveness studies in bronchoscopy  
**Fabien Maldonado, Nashville, USA**

**11:35-11:50** Ablative energy source: How to choose?  
**Erik Folch, Boston, USA**

# PROGRAM

# PROGRAM

11:50 - 12:20

## Medtronic

Segmentectomy with 3D reconstruction  
**Rene Petersen, Denmark**  
Industry Session

12:20 - 14:00

Lunch

14:00 - 14:25

## OLYMPUS

Enhancing precision in pulmonary resections with ICG  
**Juan Carlos Trujillo-Reyes, Barcelona, Spain**  
Industry Session

### Session 5: Clinical cases

Moderators: **Hyun Koo Kim, Seoul, South Korea, Pallav Shah, London, UK & Alexander Spiers, Exeter, UK**

14:30 - 15:00

Clinical cases on MDT

### Session 6: How to start a program: what I need as an operator

Moderators: **T. Routledge & P. Shah**

15:00 - 15:10

Why I want a robot?  
For segmentectomy:  
**Marion Durand, Paris, France**

For ablation:  
**Kelvin Lau, London, UK**

Do I need a robot for each procedure? Surgical skills and technology is the key  
**Agathe Seguin-Givelet, Paris, France**

15:00 - 15:20

Discussion

15:20 - 15:45

Break

Session supported by

INTUITIVE  
SURGICAL®

### Session 7: How to train these techniques?

Moderators: **JM Baste & F. Maldonado**

15:45 - 16:00

How to train VATS/RATS segmentectomy  
**Tom Routledge, London, UK**

16:00 - 16:15

How to train peripheral bronchoscopy?  
**Janani Reisenauer, Rochester, USA (v)**

16:15 - 16:30

Values for formation and fellowships  
The Trainer's perspective:  
**Robert Cerfolio, New York, USA**  
The Trainee's perspective:  
**Dorian Rojas, Rennes, France**

### Session 8: Focus on GGO

Moderators: **P. Thomas & D. Yankelevitz**

16:30 - 16:50

Pure ground glass lesions  
• For sublobar resection: indications  
**René Petersen, Copenhagen, Denmark**  
• For ablation (bilateral...)  
**Calvin SZE Hang Ng, Hong Kong**

16:50 - 17:00

Lymphadenectomy for pure GGO: Yes or No  
**Agathe Seguin-Givelet, Paris, France**

17:00 - 17:10

Discussion

17:15

End of Day 1

## DAY 2: FRIDAY, JANUARY 10<sup>th</sup>, 2025

### Session 9: Challenging situations for SLR

Moderators: S. Cassivi & R. Petersen

- 8:30 - 8:45** Pleural invasion or central location for segmentectomies: do I care?  
Shanda Blackmon, Houston, USA
- 8:45 - 9:00** Margins for sublobar  
Karel Pfeuty, Saint-Brieuc, France
- 9:00 - 9:10** Lymph node dissection during sublobar resections (except pure GGO)  
Carlos Galvez, Alicante, Spain
- 9:10 - 9:20** Technique: Complex segmentectomies tips and tricks  
Ilies Bouabdallah, Marseille, France

### Session 10: Challenging situations for ablation

Moderators: E. Folch & P. Shah

- 9:20 - 9:35** Subpleural location or central location for ablation: do I care?  
Kelvin Lau, London, UK
- 9:35 - 9:45** Ablation for multiples lesions  
Calvin SZE Hang Ng, Hong Kong
- 9:45 - 9:55** Ablation for large lesions  
Michael Pritchett, Pinehurst, USA
- 9:55-10:25** Break

### Session 11: Nightmare after sublobar resections and ablation: sharing experience

Moderators: R. Cerfolio & K. Pfeuty

- 10:25 - 10:35** One of my worst complication after ablation  
Kelvin Lau, London, UK
- 10:35 - 10:45** One of my worst complications after segmentectomies  
Jean-Marc Baste, Rouen, France
- 10:45 - 11:00** Complications after segmentectomies: how to manage them?  
Marion Durand, Paris, France
- 11:00 - 11:15** Complications after ablation: how to manage them?  
Alexander Spiers, Exeter, UK
- 11:15 - 11:25** Discussion

### Session 12: Technical session - Part 1 (video session)

Moderators: G. Boddart & M. Pritchett

- 11:25 - 11:30** Nodule labelling: new technique ICG soaked coils  
Hasnain Bawaadam, Chicago, USA
- 11:30 - 11:40** Robotic bronchoscopy how to do it?  
Janani Reisenauer, Rochester, USA (v)
- 11:40 - 11:50** Bronchoscopic ablation: how to do it?  
Pallav Shah, London, UK
- 11:50 - 12:00** Complex segmentectomies of the lower lobe: my tips and tricks?  
Agathe Seguin-Givelet, Paris, France

# PROGRAM

# PROGRAM

12:00 - 12:10

Complex segmentectomies of the upper lobe: my tips and tricks?  
**Hiroyuki Oizumi, Tokyo, Japan**

12:10 - 12:40

Symposium Vergent Bioscience  
Optimizing Sublobar Resection: Clinical Impact of Intraoperative Molecular Imaging with VGT-309  
**Gavin M. Wright, Melbourne, Australia**  
Industry Session

12:40 - 14:00

Lunch

## Session 12: Technical session - Part 2 (video session)

Moderators: **H. Bawaadam & M. Durand**

14:00 - 14:15

Robotic Segmentectomy (S1): steps by steps  
**Guillaume Boddaert, Paris, France**

14:15 - 14:30

Debate – deep and superficial ISP management  
Vein First: **Hiroyuki Oizumi, Tokyo, Japan**  
Vein Last: **Iliès Bouabdallah, Marseille, France**

14:30 - 14:45

Fused fissure: tunel technique  
**Karel Pfeuty, Saint-Brieuc, France**

14:45 - 15:00

Discussion

## Session 13: Assessment during & after the procedure

Moderators: **C. Galvez & A. Spiers**

15:00 - 15:10

Assessing ablation margins during ablation  
**Kelvin Lau, London, UK**

15:10 - 15:25

Granuloma or recurrences how to manage after sublobar resection?  
**Hyun Koo Kim, Seoul, South Korea**

15:25 - 15:40

Interpretation of post ablation images and management of recurrence  
**Alexander Spiers, Exeter, UK**

15:40 - 15:50

Panel discussion

15:50 - 16:20

Break

## Session 14: Future and perspectives

Moderators: **S. Blackmon & K. Lau**

16:20 - 16:30

Navigation and tumor injections to potentialize SBRT  
**Erik Folch, Boston, USA**

16:30 - 16:40

Oncologist perspectives on the rise of sublobar resections and ablation  
**Nathaniel Scher, Paris, France**

16:40 - 16:50

Future of sublobar resection and ablation?  
**Agathe Seguin-Givelet, Paris, France**

16:50 - 17:00

Panel discussion

17:00 - 17:10

Conclusion: Take home message  
**Agathe Seguin-Givelet, Paris, France & Kelvin Lau, London, UK**

17:10

End of conference

## Sublobar, Paris Jan. 9 – Jan.10, 2025

Join Our Symposium on Thursday, Jan. 9 at 2–2.25 pm

Enhancing Precision in Pulmonary Resections with ICG

**Speaker**

**Juan Carlos Trujillo-Reyes,  
MD, PhD**

Director del Servei Mancomunat de  
Cirurgia Toràctica  
Hospital de la Santa Creu i Sant Pau /  
Hospital del Mar

Visit us on booth **no. 5**

**VISERA  
ELITE III**

**ENDOEYE**

**THUNDERBEAT**

VISERA ELITE III

POWERSEAL

THUNDERBEAT

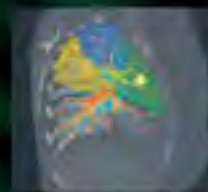

# Surgical Reality

Optimized Surgical Visualization  
from 2D to 3D within minutes

## Select a CT

Plug-and-play on-site application  
Data remains in the hospital IT environment

## Automatic colored 3D anatomy

Complete patient-specific reconstruction  
of arteries, veins, airways, lobes and  
Pulmonary segments within minutes

## Interactive 3D models

Simulate every step of the procedure,  
both pre- and intra-operatively for RATS  
or VATS surgeries

Visit us at **booth #4** or online at
